make this a very different things. put home, put about, don't put services, put contact. don't put login.

I'm looking for Apartment for re

like in this but remove electronics.

The screenshot shows the homepage of eautoparts.lk. On the left, there's a sidebar titled "Browse categories" with a dropdown arrow. It lists several car brands: TOYOTA, NISSAN, MITSUBISHI, CHERY, ZOTYE, DFSK, FOTON, PERODUA, and LAND ROVER, each with a right-pointing arrow. Below this is a link "+More Categories". At the top right, there's a search bar with placeholder text "Looking for something? Search here...", a magnifying glass icon, and a "My Cart" button with a red notification badge showing "0". A red navigation bar at the top has links for HOME, ABOUT, SERVICES, CONTACT, and LOGIN & REGISTER. The main content area features a large image of a turbocharger with the text "Top Quality Aftermarket Turbocharger Specialist" and a "SHOPPING NOW" button.

make a browser categories thing.

The screenshot shows the homepage of Riyasakwala. At the top, there's a black header with the logo "Riyasakwala" and a list of vehicle categories: All Vehicles, Three-wheelers, Motorcycles & Scooters, Quadricycles, Cars, SUV, and Lorries. The main background is a purple-toned image of various vehicles. In the center, there's a call-to-action text: "Find the best registered vehicles closest to you @ the most reasonable prices". Below this is a search bar with dropdown menus for "Select District", "Select Vehicle Type", "Select Brand", and "Choose Price Range", followed by a "Search" button. At the bottom, there are four categories with icons: "Quadricycles" (a small car icon), "Cars" (a sedan icon), "SUV" (an SUV icon), and "Lorries" (a van icon). Each category has a circular arrow icon to its left and right.

in here instead of quadricycles, cars, suv, lorries, add audi, bmw, scoda brand names. and after clicking a button like this square it should lead you to a page like this.
